Kansas City Streetcar Walking Tour Event Recap

We had a successful KCAPA program the afternoon of Thursday, May 29th. The program was titled “**Streetcar Walking Tour**” and focused on Phase 1 of the downtown streetcar construction. City planning staff discussed the development generated by the streetcar, and its similarities and differences from conventional development within Kansas City, Mo. Engineering staff and consultants pointed out current construction and discussed challenges posed by the construction and its impact on pedestrians, vehicular traffic, and the business community along the project corridor. Approximately 17 people attended the event. A big thanks to our tour guides who volunteered to participate in the program!

Diane Binckley – Development Management Division Manager, City of Kansas City, MO

Vincent Gauthier – Director of Planning, BNIM

Jason Waldron – Engineering Section Head, City of Kansas City, MO

Joe Rexwinkle – Lead Planner in Development Management Division, City of Kansas City, MO
